

CBC50K / CBC75K

Compression Weighing Load Cells

- 50,000 lb/22,500 kg and 75,000 lb/34,000 kg capacities
- Anti-rotation pivot inserts
- Environmentally-sealed (IP68)
- Stainless steel construction
- NTEP legal for commercial trade
- 75'/23m integral shielded cable

These heavy-capacity, compact compression load cells are ideal for multiple load cell weighing applications such as truck scales and heavy-duty tank weighing systems. The load cells are fabricated from stainless steel to provide the ultimate in protection when caustic, corrosive or wet environments are encountered. Load cells are environmentally-sealed IP68 with a welded stainless steel cup for absolute water protection.
